PricewaterhouseCoopers LLP
PricewaterhouseCoopers Place
Suite 700 - 250 Howe Street
Vancouver, BC V6C 3S7

Attention: Bruce McIntyre

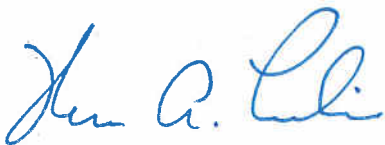

Dear Mr. McIntyre:

Boise Cascade's assertion of conformance with the Sustainable Forestry Initiative® Program ("SFI") Annex 2 Chain of Custody Standard and the Programme for the Endorsement of Forest Certification Schemes ("PEFC") Annex 4: Chain of Custody of Forest Based Products – Requirements Standard (the "Standards") for the Western Oregon Engineered Wood Products manufacturing facility as of November 24, 2006 is:

"To ensure conformance with the Standards and to provide a process for continual improvement, the management at the Western Oregon Engineered Wood Products manufacturing facility has developed and implemented an appropriate Chain of Custody system, including performance measures.

We report that the Chain of Custody system at the Western Oregon Engineered Wood Products manufacturing facility conforms to the requirements of the Standards."

Yours truly,

Thomas A. Lovlien
Wood Products, Senior Vice President

Chain of Custody Certificate

PricewaterhouseCoopers issues this certificate to:

Boise Cascade, L.L.C.

1111 West Jefferson Street, PO Box 50, Boise, ID 83728 United States

In our opinion, Boise Cascade's Western Oregon Engineered Wood Products manufacturing facility met, in all material respects, the following Standard as of November 24, 2006:

PEFC Annex 4: Chain of Custody of Forest Based Products Requirements Standard (June 17, 2005)

The following scope of registration is limited by the attached Registrar's Report dated November 28, 2006, which is printed on the reverse of this Certificate:

BCI® Joists, VERSA-LAM® laminated veneer lumber products, and BC Rim Board® produced at the Western Oregon Engineered Wood Products manufacturing facility in White City, OR

PricewaterhouseCoopers LLP

Date of Original Registration	November 28, 2006
Date of Current Registration	November 28, 2006
Date Registration Expires	November 27, 2011

Registrar's Report

To the Board of Directors and Management of Boise Cascade, L.L.C.

We have audited management's assertion, set out in the attached letter, that Boise Cascade, L.L.C. has met the requirements of the Sustainable Forestry Initiative® Program (SFI) Annex 2 Chain of Custody Standard (October 2006) and the Programme for the Endorsement of Forest Certification Schemes (PEFC) Annex 4: Chain of Custody of Forest Based Products – Requirements Standard (June 17, 2005) ("the Standards") at the Western Oregon Engineered Wood Products manufacturing facility¹ as of November 24, 2006. Management is responsible for ensuring the Western Oregon Engineered Wood Products manufacturing facility met these requirements. Our responsibility is to express an opinion on management's assertion that the Western Oregon Engineered Wood Products manufacturing facility met these requirements, based on our audit. The requirements of the SFI® and PEFC Chain of Custody Standards can be found at www.aboutsfb.org and www.pefc.org.

Our audit was conducted in accordance with the ISO 19011:2002 Management System Auditing Standard and, accordingly, included examining, on a sample basis, evidence supporting management's assertion that the Western Oregon Engineered Wood Products manufacturing facility met the requirements of the Standards, evaluating on an overall basis whether the requirements were met, and performing such other procedures as we considered necessary in the circumstances. Our tests of the operating effectiveness of the specific controls were as of November 28, 2006. The projection of any conclusions, based on our findings, to future periods is subject to the risk that changes may alter the validity of such conclusions. We planned and performed our work in order to obtain reasonable, rather than absolute, assurance with respect to the information examined. We believe our examination provides a reasonable basis for our opinion.

In our opinion, the Chain of Custody management system and control procedures for the Western Oregon Engineered Wood Products manufacturing facility were suitably designed to provide reasonable assurance that the requirements of the Standards were met, in all material respects, and that the management system and control procedures operated effectively as of November 24, 2006.
