

## **Versa-Stud Allowable Nailing and Notching**

### **Minimum Allowable Nailing Spacing<sup>1</sup>**

Connector Size	Nailing Parallel to Glue Lines (into 1 1/2" thick face)	
	O.C. Spacing (in)	End of Member (in)
8d Box	3	1.5
8d Common	3	2
10d & 12d Box	3	2
16d Box	3	2
10d & 12d Common	4	3
16d Sinker	4	3
16d Common	6	4

1. Lateral and withdrawal values for nails are equivalent to Douglas Fir-Larch solid-sawn lumber (SG = 0.50).

### **Maximum Allowable Hole & Notch Dimensions** **(Limited to 10 foot floor to floor wall height)**

**Based upon Wall Framing Provisions in the ICC<sup>®</sup> International Building Code**

Versa-Stud Size	Maximum Hole Diameter <sup>1</sup> (in)	Maximum Notch Depth (in)
1 1/2" x 3 1/2"	1 3/8	7/8
1 1/2" x 5 1/2"	2 1/8	1 3/8

1. Holes can be cut not closer than 5/8" from edge of stud.
