

BOISE® QuickQuote™

Boise is proud to introduce BOISE® Quick Quote. BOISE® Quick Quote is a simple-to-use, Microsoft Excel based program designed to provide the ability to create a quick quote of a floor system designed using Boise Engineered Wood Products.

It's simple! Using BOISE® Quick Quote, users can quickly:

- **Provide Customer Information**
- **Define Price Level**
 - Select one of three different pricing levels
 - Enter Sales Tax
 - Provide a Length Markup Percentage
- **Define floor parameters**
 - Area(s) width and length
 - Floor Joist being used
 - On-Center spacing
 - Define Sub-Area if included in floor
- **Define Building Options**
 - Linear Footage of Blocking
 - Stair Way Opening
 - Rimboard Use (All Sides, Perpendicular to Framing or None)
 - Hanger Type and Quantity
 - Beam Type and Linear Footage
- **Generate Quote**
 - Select the Generate Quote Button and a professional looking quote sheet is provided
 - Either Print or Save As a PDF file for your customer.

That's it.
