

Survival Of The Leanest.

We've all been a little beat up lately. If deep budget cuts and brutal competition have left your business reeling, skip the Band-Aid solutions. It's time to get lean and work mean. Boise Particleboard revives your bottom line where it's needed most.

Lower inventory, less labor, fewer tools, less waste, and reliable delivery. This could save you more than a few dollars. It could save your business.

Boise Particleboard supports lean manufacturing

Reduces wear on your tools

Reduces tool changes
and downtime

Improves precision cutting
to limit rejects

Speeds throughput

Ships when you need it,
every time

Produces lower total cost

This sculpture was machined from a 1'x1' block of 100% Boise Particleboard. If we can make first aid look this good, imagine what we can do for your products.
