Trex Transcend®

Outperforms, outresists, outlasts . . . basically
OUTDECKS ALL OTHERS

- Unparalleled Beauty. Distinctive, high-definition wood grain patterns are engineered with a low sheen, high-traffic technology that makes it last for decades longer than anything out there
- Hassle Free. Virtually indestructible shell, that's fade, stain, and scratch resistant, and cleans easily with soap and water
- Earth Friendly. Made of 95% recycled materials, with manufacturing processes that are as green as they get
- 25-Year Limited Fade and Stain Warranty

Available in:

- 1 x 6 - 12', 16' & 20' Square edge
- 1 x 6 - 12', 16' & 20' Grooved for hidden fasteners
- 1 x 8 - 12' Fascia
- 1 x 12 - 12' Fascia
- 2 x 4 - 16' Square Edge (Classic Earth Tones only)
- 2 x 6 - 12', 16' & 20' Square Edge (Premium Tropical Colors only)

Trex Transcend & Select Railing
features modular construction offering
unprecedented design flexibility

Gravel Path

Three Boards. One Fastener.

The FastenMaster TrapEase 3 is the only fastener guaranteed to create a clean finished look without pre-drilling in all three types of synthetic decking: Composite, PVC and Capstock. The new anti-strip Torx® TTAP® drive system, and a lifetime corrosion warranty make TrapEase 3 the Ultimate Composite Deck Screw.

Torx® TTAP® Drive System

The new TrapEase 3 Torx® TTAP® Drive System features a stability button which delivers unmatched stick-fit and wobble free installation that eliminates fastener strip out.

FastenMaster Spotter™

Much more than a lid, the Spotter is an installation guide that reduces installation time by consistently placing the fasteners and gapping the deck boards.

For more information or a product demo call a fastener expert at 800-518-3569

FastenMaster TrapEase³ Ultimate Composite Deck Screw

CRAZY BIG ENDURANCE.

Unlike other materials used for trim these days, MiraTEC® is the one product actually conceived and engineered to do the job. Moisture, rot, termites, checking, splitting and cracking are all challenges it boldly takes head-on and crushes. As the first and only wood composite trim to earn an evaluation report (ESR-3043) from ICC-ES, MiraTEC simply performs to a standard hardboard and OSB cannot. Not by chance, but by design.

Visit miratectrim.com for a representative or retailer in your area, or call 1-800-255-0785 for free product samples.

JamesHardie

Siding | Trim

Installed on over 5.5 million homes from coast to coast, James Hardie® fiber cement siding products are specifically engineered to resist damage from extreme conditions while romancing the senses. Enjoy the warm, natural character of wood with unprecedented peace of mind. It's easy to see what makes James Hardie the market leader.

UNIQUE FORMULATION

Only James Hardie fiber cement products are Engineered for Climate® for enhanced strength and moisture protection. HZ5® products resist shrinking, swelling and cracking in wet or freezing conditions. HZ10® products help protect homes in hot, humid conditions.

FINISHING TECHNOLOGY

ColorPlus® Technology baked-on color delivers a beautiful finish that resists fading and makes a lasting impression.

COMPLETE EXTERIOR™

Offers homeowners an unrivaled collection of design options with exceptional warranties through a single, trusted manufacturer.

ColorPlus® Technology

Give homes a beautiful, consistent finish that looks brighter, performs better and lasts longer.

GreenGuard®

Moisture Management • Energy Efficiency

www.TrustGreenGuard.com

GreenGuard® XPS

Type IV
25 PSI

GreenGuard® XPS Insulation Board is ideal for applications where moisture resistance and long-term R-Value are desired. As Continuous Insulation (Ci) in walls, slabs and foundations, GreenGuard® XPS provides R-Value of 5 per inch of thickness. XPS Type IV is suitable for applications requiring up to 25 PSI compressive strength. With low water absorption, light weight, and easy cutting, GreenGuard® XPS is a workable, effective insulation choice.

GreenGuard® MAX™

GreenGuard® MAX™ Building Wrap is a recognized air barrier listed with www.airbarrier.org, and has demonstrated water holdout capabilities in industry-recognized water resistance tests. This non-perforated wrap also breathes to allow moisture vapor to escape. With its high tear resistance, it is suitable for commercial and residential applications. It remains UV stable up to 6 months.

Water Barrier • Air Barrier Commercial Grade Durability

GreenGuard® DC14

Virtually Unrestricted Drainage and Drying
GreenGuard® DC14 Drainage Mat is a unique, light-weight polystyrene mat used for water drainage and air movement behind substrates. It does not absorb water and is resistant to wood chemicals. Drainage channels on 2-sides.

1/4" x 4' x 48' Fanfolded Bundle

GreenGuard® Butyl
Flashing

GreenGuard® Butyl Flashings provide high-performance water resistance for walls. They adhere across a broad range of installation temperatures, ensuring effectiveness in all climates. And they conform to irregular surfaces, eliminating gaps that could create water canals.

GreenGuard® SuperStretch™ Butyl Flashing stretches in any direction and sticks tight, making it easy to use and effective for curved surfaces and corners.
